It's here! Time for long walks, bike rides, fishing, hiking, family gatherings and taking advantage of all our wonderful town has to offer! It's also time for yard work and being outside for longer periods which means we all need to remember to pace ourselves when working outside, drink plenty of water, with this warmer weather our bodies need more water to stay hydrated. Also don't forget your sunscreen for you and little ones. Our skin is especially sensitive this time of year after being cooped up all winter it's important to use sunscreen even when you're out for just a short time let alone long days enjoying the sun. Applying sunscreen in the morning as a routine is always a good idea.
