Provide, attached to this sheet or on a separate sheet, all pertinent calculations to show that this stormwater treatment practice (STP) complies with the technical standards, sizing criteria, and/or restrictions stated in the Vermont Stormwater Management Manual, as amended. Attach stage-storage-discharge tables, storage volume calculations, outlet description, overflow description, runoff calculations, and all other pertinent information necessary to perform a detailed review of this STP.

The Town of Williston Stormwater Program strongly encourages the submission of State of Vermont application forms, calculation worksheets, waiver worksheets, site design credit worksheets, and Stormwater Treatment Practice (STP) worksheets with all credit applications. Use of these worksheets ensures that the necessary information is being submitted, provides a common format for all applications, and will decrease review time. The Stormwater Program reserves the right to require completion of specific worksheets, relevant to the credit for which you are applying, in order to consider an application complete.
