Re: North Ridge Development DP 17 - 01

The Fire Department has completed review of the above referenced project and offers the following;

The Town of Williston Fire Department Plan Review Standard (Standard) dated March, 2013 was adopted by the Williston Selectboard on June 17, 2013. Contained within this Standard are a number of requirements including;

- | | |
|----------|--|
| DISTANCE | Separation distance between carriage and attached units

Williston Fire is interested in the material planned for siding |
| SIGNAGE | Building and mailbox marking per Town Ordinance

Signage at intersections, listing the numbers of residences on the street, is requested |
| HYDRANTS | Numerous hydrants will be needed

Williston Fire is interested in reducing the number of hydrants in this development |

Williston Fire requests that the applicant meets with the Department to review the above.

In advance, I encourage the applicant to access this Standard so as to better understand our requests.

Thank you for including the Fire Department in the review process.
