

**TOWN OF WILLISTON**  
**Fire Hydrant Replacements**  
**Specifications and Bid Form**  
**April 9, 2019**

**INTRODUCTION**

With this Bid Package, the Town of Williston is seeking a contractor for replacement of selected Hydrants in our water system. Williston Water is looking to replace some of its aging hydrants that are part of our system.

**SPECIFICATIONS**

The Contractor must provide a list of experience, at least three previous, with similar projects that involved working on this type of infrastructure.

The Contractor shall make all necessary arrangements to conduct his operations with minimal disturbance to the town water system and its residents.

The Contractor must give at least 48hours notice before any interruption to the water supply so that residents and business can be notified of possible disturbance.

The Contractor shall be responsible for OSHA/VOSHA requirements for excavation, notification of Dig Safe and Construction Signage and Traffic Control.

The Contractor shall perform all necessary clean-up of debris and disturbances caused by his operations. This includes returning site to as was conditions.

The Contractor shall furnish all necessary labor and equipment to accomplish this work and make it whole; work could include valve replacement as well and will be determined on a case by case basis.

The Contractor shall furnish all traffic control as may be needed. This is to include signage and certified traffic control technicians.

The Contractor shall provide a Certificate of Liability insurance naming the Town as an additional insured according to the requirement of the Owner.

General Liability:

Each Occurrence	\$1,000,000
MED EXP (any one person)	\$10,000
Personal & ADV Injury	\$1,000,000
General Aggregate	\$2,000,000
Products – Conpcp AGG	\$2,000,000

The Contractor shall provide other documentation as required by the town (not bonds).

Payment to the Contractor will be made within 30 working days of receipt of invoice when all work is complete.

Attached to this RFP is a list of the hydrants to be replaced. They are given by Hydrant Number and by nearest street address.

The Town will provide Hydrant or Valve replacement not to include work necessary to restore site or materials used for excavation.
