

Natural Features Map

Vermont Land Trust
Property: Catamount Family Center
Location: Williston
8 Bailey Avenue, Montpelier, VT 05602

Purpose of Natural Features Map

This map shows some natural features of ecological interest, that were identified through field work in preparation of conservation and/or other field-verified sources. This map is intended to be used as an informational and educational tool. It is not an exhaustive inventory, and the features shown here may or may not be subject to special restrictions in the conservation easement. Please refer to the easement, the conservation easement map and/or the current Forest Management Plan for information on features that are subject to special restrictions.

This map is not a survey or subdivision plot, and should not be used or construed for such purposes. It was prepared without the benefit of field measurements or extensive title research. It is intended solely to assist the owner(s) of the conserved land and the holder(s) of the conservation easement in the administration and interpretation of the conservation easement by clearly depicting the presumed boundaries of the protected property, calculating the approximate acreages, and showing the approximate locations of any excluded lands, farmstead or homestead complex, farm labor housing complex, or special treatment areas.

THIS MAP IS NOT A SURVEY

	Beaver wetland complex		Scale: 1:9,000
	Northern Hardwood Seepage Forest		
	Vernal Pool		
	Hemlock-Balsam Fir-Black Ash Seepage Swamp
