

Section 7. Building Functions

A. Uses

Uses are grouped into broad categories. Permitted uses, by BUILDING FORM STANDARD and STORY, are shown in the use table below and defined in 7.H at the end of this Section.

1. All uses are defined in in F below. When in conflict, these standards govern.
2. Permitted uses by BUILDING FORM STANDARD frontage are shown in *Section C. Use Table*, below.
3. Certain uses are exempt per *Section 4.2 of the Williston Unified Development Bylaw*.
4. All uses not expressly permitted or exempted are prohibited.
5. All uses must meet the standards of the applicable BUILDING FORM STANDARD in *Section 3*. Any additional development or performance standards are indicated in the *Section D. Use Table* and provided in *Sections D.-H.* below.

B. Use Determination

1. **Administrator Responsibility:** The Zoning Administrator is responsible for categorizing all uses. If a proposed use is not listed in a use category, but can be said to be reasonably similar in intent and reasonably fit into one of the listed use categories, the Zoning Administrator must treat the proposed use as a permitted use under that category. If a proposed use is not listed in a use category, and is fundamentally different from any other listed use and there is reasonable doubt that it is compatible with the functioning of Taft Corners, the use must be prohibited.
2. **Uses Not Specifically Listed:** When determining whether a proposed use is similar to a use listed in *Section 7*, the Zoning Administrator must consider the following criteria:
 - a. The actual or projected characteristics of the proposed activity in relationship to the stated characteristics of each use.
 - b. The ability of the proposed activity to reasonably function within the constraints of its BUILDING FORM STANDARD.
 - c. The likely impact on surrounding properties.
 - d. The intent of the Taft Corners Form Based Code.
